

Fine Quality Dim Sum

www.caiefood.com

CaIE Foods Partnership was established in 2010 with the vision of becoming a national food manufacturer of Dim Sum (Asian appetizer) products. CaIE Foods is focused on using innovative technology and the purest ingredients, as well as providing outstanding customer service and convenience.

The business has grown to servicing Las Vegas, California, and Hawaii, prompting CaIE Foods to expand their production into a 27,000 sq. ft. facility in Sparks, N.V. This current facility is a USDA certified food plant under daily USDA inspection. With our understanding of the market for our product line, we recognize an unfulfilled need for Dim Sum Cafés. The vision for Dim Sum Café is multifaceted. Starting with the west coast areas, then progressively moving the café concept to potential areas back east. Asian food markets are among the most rapidly growing food markets in the nation.

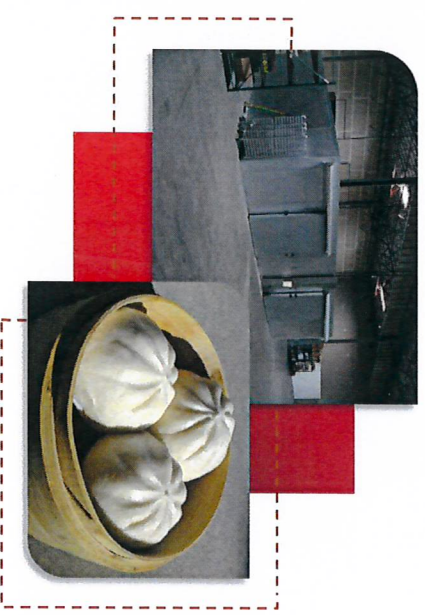

Competitive Advantages:

- First to offer “fresh Dim Sum” with an extended shelf-life.
- USDA approved and inspected facility since 2010.
- State of Art Facility (27,000 sq ft).
- Nevada is in the top 3 states to start a US Business due to it's tax friendly environment.
- Exceptional Management Team & Partnerships.
- First-Mover Advantage (Brand Equity) in vastly untapped market.
- Publicly-held Company. (Pending completion of audit.)
- Expand Retail Business through Licensee Opportunities.
